Community Centre Fund Reaches \$60,000 In Cash Total

Another plateau was reached this week by the Highlands Fund Raising Committee for the drive to raise money for Minden's new Community Centre. The total cash receipts now stand at \$60,053.47, with the funds sent into the Municipality over the past seven days.

Norm Harrison, Over-All chairman and Richard Parisotto, Ways and Means Chairman took particular note of the donation made by the Canning Lake Cottagers Association. Their support was greatly appreciated. Both Chairmen agreed that

the support coming from many of Minden's summer residents has just been tremendous.

The Kinsmen have been working extremely hard to make their obligations and this is greatly appreciated.

The fund is expected to continue for there are a number of donations expected from various persons and groups in the area which should boost the total closer to the \$75,000.00 goal.

The Fund Raising Committee will be approaching council in the near future to reveal cost estimates and final plans.

SKATING CLUB NEWS

This is a very important meeting and the executive would like to see all mothers out to ask any questions and offer any suggestions they might have.

The main purpose of this meeting is to give parents an insight of the problems we are up against this year regarding ice time available and the expense of busing the skaters to the rink.

More about flags. I got a very interesting letter from Mrs. Kay Lunham regarding the flying of the American flag. It was well written and I agree with her in a great many ways — but not 100 per cent.

I turned the letter over to the Editor and you should be able to read it. The main complaint I had about the flag situation was people who make obnoxious calls to business places about flying the American flag. I'm all for people being able to express their opinion but, when they refuse to identify themselves their opinion isn't worth too much. Personally if you write me and don't sign your letter, I throw it out. By the same token, a 'phone call from anyone who doesn't identify themselves — I hang up.

I think Mrs. Lunham agrees with me there, at least.

I didn't get down to the Norwood Fair to confront Elwood Cranston but from what I hear quite a few people ran foul of him — too bad though because I was kinda looking forward to it. Maybe sometime later.

The visitors to Minden over the Thanksgiving Holiday were many and varied. There were quite a few complaints about the lack of facilities for feeding everyone — it's just one of those things — a sudden influx of people and, our restaurants filled to capacity and just nowhere to put the overflow. It's a risky business at best and the season is short.

There is always the suggestion that we need more restaurants in Minden but, the trade just isn't here in the winter and that's a big consideration.

It's the season again for the political pot to be boiling over into your livingroom from the "boob-tube" — ye gods, the regular programmes are bad enough to stomach but to be a captive audience to this type of promotion is almost too much — however, that's why they put the on and off button on the set. At least you have the choice of turning it one way or the other.

You have to see the new County Council meeting room to appreciate it. It is without doubt a real credit to Frank Welch who, I understand had a great deal to do with the design and procurement of the furniture etc.

I can't do it justice here — drop in and see it and you'll feel as I do — they are to be complimented on their building.

Another office that I found very impressive was Don Finn's. His good wife Carole is largely responsible for the layout and the art work involved. The old photos, art work and antiques make Don's office a credit to the community.

Mrs. Finn is quite an artist in her own right — I have before me a "thank you" card with three racoons on it — very professional.

The grounds outside the office are the care of Angus Coulter and it certainly speaks well for the time and effort that Angus puts into it.

Now, for the collectors. Don't really know what it's value — dated 1965 has Elizabeth II on the face and Churchill on the obverse side.

Well, Thanksgiving is over — the traffic is getting lighter but the danger is still there — drive carefully, life still can be beautiful.

DOLLARS AND GOOD SENSE

by William J. Martin

Dear Mr. Martin:

My wife and I have been discussing the possibility of her returning to work this fall, now that the youngest of our two children will be entering second grade. We've been weighing all the variables about this situation but we've probably left out a few. What's your advice on working wives?

Mr. J. B.

Dear Mr. J. B.

The income your wife might earn from a job can be a boost to the family finances or could provide a lot less than you expect.

If your wife gets a full time job, for example, you will probably need to hire someone to take care of your children in the afternoons and do a little housework. Add this to the costs of transportation, lunches, clothing and even added food costs (because your wife will have to rely more on expensive convenience foods) and the net income may not be as much as you've anticipated.

Consider also that the added income will put you into a higher tax bracket and to compute the true net income for your wife's job, this added tax burden should be deducted.

With all these deductions, a job that grosses \$90.00 a week for instance, could dwindle to a true net of about \$25.00. Not

much for the effort and inconvenience of a full time job.

A part-time job, on the other hand, can actually net more for your wife because several high expenses will have been eliminated. She could arrange her hours so that she could be home to take care of your children and the housework - two big expenses.

A part-time job can be diffi-

cult, of course. Handling her new duties plus all of her present chores can put quite a strain on your wife. Any outside employment needs the co-operation of all family members.

My advice is to add up all the expenses involved in your wife's working - and I mean all, so you can determine the true net income of your wife's job. Only then can you make a fair evaluation of whether or not she should work and how much she should work.

WHERE IT'S AT

In today's fast-moving society, there are many sayings, usually made known through the television media — one such saying is "where it's at". This simply means, where the action is, or where the

most important happenings of society are taking place, for those who are using this expression.

I picked up a hitch-hiker the other day, a young lad of 20. He was in his third year of social science at Trent University in Peterborough. I asked him several questions, one was, "what do you intend to do when you graduate." His reply was simple — he had never given it much thought, but because of the unemployment, he said he would probably get his B.A., then enroll in another course. Otherwise he was going to be a professional learner. His words were, "it certainly beats working, and besides, University today is, where it's at."

I am made to understand that this educational bit until you are 35 or 40 is quite common, and more and more younger people are taking advantage of the easy, fun-loving life in University. This is made possible through financing from the government, and of course it helps if old dad kicks through with a few green backs, once in a while. I am not knocking this, but it seems a waste of talent and ambition.

Another fellow who says he is where it's at is Rev. Andrew Hutchison, better known as "Father Hutch". Father Hutch, is the Anglican Church Minister here in Minden. It is his claim that the church has changed a great deal and is now dealing with everyone with a broader out-look. He spent some of his time in the evenings this summer in the hotels, talking to the younger generation, answering questions, and on some occasions bunking a few of them up, when they had no place to stay. I have never known much to be accomplished when people are drinking, most times it is hard enough to communicate with some people not under the influence of alcohol.

It seems to me that some people with much to give get wrapped up in this "where it's at" bit, and accomplishments are few and far between. Now this might sound like the second half of last week's editorial, but until people are given more incentives to work, and gain accomplishments, and be part of an active society, we will continue to have unemployment, welfare, a high rise in crime, protests, strikes, yes and possibly civil war.

The unfortunate part of degeneration in some parts of our society, and it seems to me it is involving more and more people, is the discontent it brings to those who have always played a keen role in business and commerce. The sooner our country sets up a balanced economy, the sooner we can get the dead beats feeding themselves. I know where it is happening for me — right in my pocketbook — keeping those going, who don't work or don't want to work — thinking they know "where it's at".

LETTER TO THE EDITOR

October 11th, Minden.

Dear Sir:

In regards to letter re: Haliburton Echo Oct. 7th, Elizabeth Nunn regarding Mr. Ward who used to be the Inspector of Schools in this area. He did a wonderful job and everybody liked him here and he was a credit to our community.

It seems to depend on who you know and not how good you are when decisions are made as to who gets the job and how much the salary is.

HALIBURTON COUNTY TEACHERS PLAN PROFESSIONAL DEVELOPMENT DAY

The Haliburton County Board of Education has declared November 12, 1971 as Professional Development Day for both elementary and secondary school teachers.

The Secondary School teachers are preparing a programme of speakers to be held in the secondary school. At present it is anticipated that the elementary school teachers will be visiting classrooms in other counties.

The Board Members are pleased that the teachers chose this day since it gives students of the County an opportunity to do their Christmas Shopping or make appointments for dentists doctors, etc. on that weekend, since they will be freed from their studies for Thursday, Friday, Saturday and Sunday. Also it will allow those boys who hunt to have some time free. It is hoped that the parents will cooperate and see that their sons attend school all the other days of hunting season, as this arrangement will allow them to have four days for hunting.

Or Would You Rather Have Only One Player?

One of the good things about business competition is your freedom to choose. For example, by dealing with an independent insurance agent or broker you have a whole team of competing insurance companies at your service. Your agent's professional training and competence means he'll pick the "player" who'll provide the best protection for you — at the best available rate. You are his client. So he's always on hand to help you when you need advice or want

to make a claim. If at any time you'd like to switch "players" or alter your coverage — or even change agents — you can do it. Instantly.

Some political medicine men want to cut you down to one player. Eliminate competition. Create a government monopoly. They say it will be more efficient that way. In Ontario we have 2,200 independent "coaches" who can prove them wrong.

See your independent insurance agent or broker for all your insurance needs.

NATIONAL HOCKEY LEAGUE —

The 1971-72 National Hockey league season swung into action on Friday evening, and after three days there have been few surprises. The only real upset I imagine, would be the game at the Boston Gardens on Sunday night when the visiting New York Rangers defeated the Bruins 4 - 1. This Ranger team has been improving slowly for the past four years and I think this is going to be the year they put everything together and go all the way to the Cup. My own order of finish to this NHL season are as follows.

EAST

- 1 New York
- 2 Boston
- 3 Montreal
- 4 Toronto
- 5 Buffalo
- 6 Vancouver
- 7 Detroit

WEST

- 1 Chicago
- 2 Minnesota
- 3 St. Louis

Anyone interested in bowling on Wednesday evenings in Carnarvon at 7 p.m. please contact the writer at 286-1318, or Cec Yearwood at 286-1114.

Bill has also offered to donate a trophy, for annual competition, for "Rookie of the Year".

HODGSON SPEAKS IN OMEMEE

Glen Hodgson, Progressive Conservative member for the Victoria-Haliburton riding, addressed a crowd of supporters at a Tory Rally in the Legion Hall Omemee, Thursday, Oct. 7th.

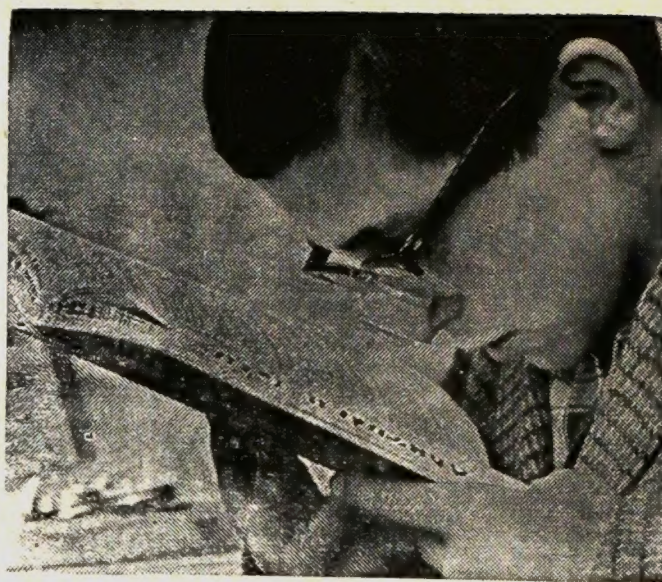

Earlier in the day he attended the Omemee Lions' Club dinner meeting.

Mr. Hodgson reviewed the achievements of the Davis government during its short term in office, and cited a number of local projects completed as well as the widening of King St. Omemee, which is now under-way.

He expressed his desire to see a truck route established through the riding northward, leaving the now-congested highways solely for the use of automobiles.

Also addressing the gathering briefly was riding federal member William Scott, who was introduced by chairman Gerald Lowes. Mr. Hodgson was introduced by his campaign chairman, Arthur Williamson.

Omeme Reeve Max Free also spoke, and participants were thanked by Cecil Reeds and Mrs. Ruth Earle. Bryon Highland, local P.C. association president, presided at the rally.

SAFETY TIPS FOR THE SPORTSMEN THIS FALL

The high-hazard boating season is with us again, the cold water months when fishermen and hunters in great numbers will be using boats to pursue their favourite sports.

Anyone who has been unfortunate enough to have his boat capsize during the fall months will substantiate the Ontario Safety League's findings that cold water rapidly saps a man's strength. Research on cold water survival points out two important facts; those who stayed with their boat hoping for rescue usually perished from cold and exhaustion, and the fortunate ones who survived the experience were protected by heavy clothing and a floatation device of some kind which allowed them to make their way ashore and find some kind of shelter and warmth.

Clothing usually worn by sportsmen in cold weather makes an ideal cold water survival suit if an approved type of life jacket is strapped over all to compensate for the weight of water-soaked clothing. Experiments by underwater clubs and Armed Forces personnel prove that the protection of such survival clothing will extend the period of activity and consciousness up to two hours even in extremely cold water. This is dependant to some extent on the general health and physical condition of the exposed person. It is important to note; the back of the head at the base of the skull is most susceptible to the effects of cold, so it is vital to protect this area with a woolen scarf or parka hood.

The Ontario Safety League wishes hunters and fishermen all the best of luck this Fall and to make sure that it doesn't run out, take along that life jacket and be prepared to use it when you are in a boat.

OPEN AREA EDUCATION

How can my child learn in a classroom of approximately 83 pupils and 3 teachers? Will he or she learn as well as in a box classroom with four walls and one teacher?

These were among the questions asked by 80 parents attending a special meeting for the parents of the Archie Stouffer Elementary School in Minden whose children, in Kindergarten Grade 1 and 2, are this year being taught in the Team Teaching Area of the school.

Mr. Stuart Baker, principal, chaired the meeting, explaining to the parents the general arrangements for teaching in the school and this particular innovative method.

The film 'Primary Education in England' was shown to illustrate such a program in action. Following the film, Mr. Baker and the three teachers involved in the open area, Mrs. E. Lidster, Mrs. H. Newton and Mrs. R. Gorrie acted as a panel to answer questions which were of concern to the parents.

Thorough and complete communication with parents and other teachers about the child and his work is very much a part of open education. This meeting seemed to clarify many misgivings the parents had and gave the staff an opportunity to discuss freely their aims and objectives in this interesting teaching environment.

We note that Soviet Premier Alexei Kosygin and his aides are to be given the Red - Carpet treatment at Inn on the Park in Toronto for just a oneday visit. The official Soviet Party has reserved 70 units for October 24th but the security will be strict and which floor will be used will not be publicized.

Thanksgiving Day — a day to eat all our fine foods and recall other times together. This festival has been a holiday for a good many years and United States celebrates this in November. It seems our Country is available for all its good food — hope everyone had an enjoyable holiday.

There was a Colour Tour for the residents of Hyland Crest Home last Friday to Bracebridge, courtesy of Dave Stamp.

We read where the M.O.H. for our Health has advised us not to use plastic bottles to store food in as it may retain the flavour of the good purchased in this.

Sport fans would surely be happy over the weekend with a variety of games including the first of the NHL games for the Season of 1971-72. They are bound we wives will learn the rules of football — I learn a few every year, but too bad, they seem to change them all the time or is it just me?

Mr. and Mrs. Lloyd Johnson have just returned from a visit with his mother at Moncton N.B.

There must have been no place for some people to stay over one night, we heard of some sleeping in a home under construction.

Sincere sympathy to the families and friends of the late Mrs. Carl Prentice and Douglas MacKenzie whose funeral were since last week.

Patients at the local hospital early this week were Charles Robb, James Hodgkinson, Mrs. A. Lunham and Mrs. D. Prentice. Sorry about my mistake it was Ken Lee who was in Ross Memorial.

Miss Cheryl Rolfe was pleasantly surprised at a Wedding Shower held Monday evening at the home of Mrs. Lawrence McKnight.

We are pleased to report that John Fleming Jr. was able to be home after his accident and will be here for a while.

Forty-five ladies from the area enjoyed a Colour tour, sponsored by Minden Womens Institute last Wednesday, with dinner at Bancroft and stops at the logging exhibit, The Museum and Trading Post all in Algonquin Park and another at the Look Out at Dorset. The leaves were certainly at their peak but unfortunately we ran into rain several times and not very many pictures could be taken.

Has been a typical Fall weekend and the crowds reminded us of summer — the leaves will soon be gone.

Cheerio until next week.

We're all in this together.

On October 21st, more than four million Ontario citizens will select, from among themselves, 117 people to represent them. And, at the same time, they will select one man as their Premier.

Bill Davis has said to the people of Ontario: "You have no need to judge us on our promises. We are asking you to support us for our performance...for the decisions we have made, for the policies we have introduced, for the more than 130 items of legislation we have implemented."

Consider that record.

The establishment of a Department of the Environment, and assistance to firms investing in pollution control equipment. The banning of logging in Quetico and Killarney Provincial Parks. Summer employment for students in clean-up operations (Project SWEEP). The Endangered Species Act. A tougher line with corporate polluters. With clear decisions and vigorous action like this, Ontario can breathe a little easier.

The Davis government's decision to halt the Spadina Expressway, coupled with a pledge to provide greatly expanded assistance to mass public transit, has brought us closer to a rational solution of our transportation problems.

The Provincial conference on economic and cultural

nationalism reflects and also contributes to an expanding awareness of the potential of our country and our people.

Davis decisions have helped the Canadian publishing industry; special provisions have been written into Ontario Development Corporation loans to encourage Canadian effort, to preserve and enhance what is distinctive about our society.

And there have been a great many other Davis government decisions...good decisions: No-fault car insurance. The task force for off-track betting. Expanded grants to day-care centres. Detoxification centres. Expanded housing on a rent-g geared-to-income basis. Free medicare for the needy, and for people 65 and over. And lowering the age of majority.

Which brings us back to your decision, at the ballot box.

For democracy to succeed, it's not enough to talk about change. Change must be made to happen. That's why Bill Davis is doing things. And doing things—for people—is surely what leadership is all about.

In his first seven months as Premier, Bill Davis has demonstrated the kind of leadership and government Ontario needs. With your support on October 21st, he will continue.

He can do much more.

Davis is doing things...for people.

On October 21st, do something for Ontario...Support Bill Davis.

PROPOSE FIVE COLLEGE COURSES FOR MINDEN AND HALIBURTON

Sir Sandford Fleming College has proposed five evening courses for residents of Minden and Haliburton as a result of meetings held in those communities last week.

The courses will begin this month and include interior decorating, survey of Canadian history, social psychology, helping difficult children in the school and community, and a special course for businessmen, titled starting and operating a business.

Each course will involve one evening a week for 10 weeks, from 7:30 to 10:00 p.m., and they will be held at the Haliburton School of Fine Arts in Haliburton Village.

'Everyone is welcome to take one or more subjects, and we have tried to make them as varied as possible to appeal to many interest,' said Sir Sandford's director of continuing education: Fred Anderson.

Mr. Anderson said the courses were for general interest, and there would not be examinations.

The College plans to use the electronic teaching technique that was well accepted by Haliburton residents last year.

Under this system, an instructor teaches his class in Peterborough and at the same time communicates with his Haliburton students through a two-way telephone hook-up and an electronic blackboard.

In addition, instructors will visit Haliburton personally for about three of the 10 sessions.

Registration is being conducted through Mrs. Alice Dugan at the Haliburton School of Fine Arts (457-1680).
